REMARKS

The figures of births and deaths shown in this statement for week ending the 21st September, 1957 relate to 139 towns with an estimated population of 22,013 thousands. Information about Andhra Pradesh, Assam, Bihar, Delhi, Kerala, Madhya Pradesh, Orissa, Pondicherry, Rajasthan and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 44% of the total number of towns representing 51% of the total population is covered in this statement.

The number of births and deaths in these towns were 14,905 and 6,633 representing birth and death rates of 35.2 and 15.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States:—
